If "yes," please describe the actions your institution/unit takes:

Students are asked to complete of action as soon as the fail for the first time. The student must meet with their academic advisor and show how they are preparing to retake the exam.

If the minor MTTC is failed twice, student will sign the minor test exception request form. They will become certified in major only.

We require the student to develop a plan with an adviser if the student has had two failures.

Not really sure what you mean. We work with students who fail once, but require them to work with us if they fail more than twice
